Measure one of your rings

1. Place a ring over the circles on the chart
2. Find the circle that matches the inner diameter of your ring
3. If your ring falls between two sizes, we recommend ordering the larger size

Measure your finger

1. Cut out the Ring Sizer below
2. Wrap the ring sizer around the widest part of your finger and tighten until it fits comfortably
3. Your ring size is the number that aligns with the arrows. If your measurement falls between two sizes, we recommend ordering the larger size
